Hi Molly, since the error resolution is being handled necessarily by you and your contractor, I'm fine with you communicating this to CES. Thanks! David

Subject: RE: Error While trying to Submit Information to EPA

No Problem! I just want to confirm that I did not notify Rebecca of the update. Would you like me to reply directly to CES or would you prefer if R9 gave them the GSDT updates as they come up?

David,

There was an issue with the formatting of the project phase. The issue has been corrected and CES should be able to submit through the GSDT. Let me know if you need anything else.

Thanks,
Molly

Subject: Error While trying to Submit Information to EPA

Hi again David and Molly,

We have uploaded our files to the GS Data Tool for our Mendota Pre-Construction Permit Application. Within the Data Tool I have validated that all fields are complete and ready for submission. However, when I hit the "Submit Information to EPA" I receive an error message (below and attached):

"Project Phase Validation"

"Invalid project phase specified: Phase1Pre-Construction
Submission cannot be completed."

EPA Class VI UIC Project Plan Submissions

Welcome Testing and Monitoring Injection Well Plugging PISC and Site Closure Emergency and Remedial Response Complete Submission

Use this tab to complete your submission and send the information to EPA.

You will need to complete all of the other tabs before the submission is accepted. Click "Validate Required Fields" to check if any fields have been left blank.

Validate Required Fields

Please select your name from the list below.

To make a submission, you must have completed an EPA Electronic Signature Agreement (ESA). If you have not done this, you are not authorized to make submissions. Please contact EPA if you need to gain authorization to make submissions, or if you have already signed an ESA but your name does not appear below.

Authorized submission made by:

- Rebecca Hollis

Comments regarding this submission (optional):

By clicking "Submit information to EPA" I certify under penalty of law that this submission is true and accurate to the best of my knowledge and belief. I am aware that there are consequences for providing false or misleading information.

For confirmation a read-only copy of your submission will be emailed to: rhollis@cleanenergysystems.com

If you have any questions, please contact your permitting authority.

Submit information to EPA

Unfortunately this same error is occurring across all the module we are attempting to submit, e.g. Project Information and Tracking, AOR and CA, Project Plan Submission, etc.

I checked the site's Dashboard or Operating Landing Page and could not find a way to modify the project phase specified: Phase1Pre-Construction. Have you seen this error before or know how I may correct this?

Any advice you could offer would be most appreciated. Please feel free to call to discuss if that is easier.

Thank you again,
-Rebecca
